1.06 Acres with a 2,306 SF Office Building

8 West High St. (Rte. 66), East Hampton, CT 06424

A New Opportunity for Adaptive Reuse & Residential Conversion

More than an office building — an opportunity to reposition a historic East Hampton property.

8 West High Street offers 2,306± SF of historic office space on 1.06± acres along Route 66, with an additional unfinished attic providing potential for expanded usable space.

Beyond its current turnkey office configuration, the property presents an intriguing adaptive-reuse opportunity for an investor, developer, or residential buyer.

Connecticut's New Commercial-to-Residential Conversion Law

Connecticut Public Act 25-164, effective October 1, 2025, establishes a framework intended to facilitate the conversion of qualifying commercial buildings to residential use. The legislation specifically includes office buildings and provides a potential summary review process for qualifying commercial-to-residential conversions.

For a buyer evaluating 8 West High Street, this creates an additional avenue to explore: repositioning the existing commercial building for residential use, potentially as a single-family, duplex, or other residential development, subject to applicable zoning, occupancy, building, fire and life-safety requirements and municipal approval.

The property's existing characteristics — including its historic architecture, three-story layout, 1.06± acre site and unfinished attic — provide a compelling foundation for an adaptive-reuse strategy.
